

ENVIROMENTAL POLICY

Cava Group of Companies is committed to proactive environmental Management that will reduce the environmental impact of the business-related activities. Cava Group of Companies Management, employees, sub-contractors and visitors will commit to the following principles:

1. Adherence to Applicable Laws and Guidelines:
 - Conduct operations with due consideration for relevant environmental legislation, regulations, and guidelines.
 - Foster awareness of environmental responsibilities among employees and contractors.
2. Collaboration and Advocacy:
 - Collaborate with clients, local communities, industry stakeholders, academic and professional bodies, and other relevant parties to advocate for practical and enhanced codes of practice and regulations in environmental management.
3. Pre-Activity Environmental Assessment:
 - Conduct a thorough assessment of environmental considerations before initiating new activities.
4. Ongoing Environmental Impact Evaluation:
 - Regularly evaluate the environmental impact and potential risks associated with the ongoing operations of Cava Group of Companies.
5. Product Life Cycle Assessment:
 - Assess the entire life cycle of products and promote responsible usage, embracing the principles of "reduce, re-use, and recycle" wherever technically and economically feasible.
6. Environmental Disturbance Mitigation:
 - Establish and uphold procedures and methods to minimize environmental disturbances resulting from company operations.
7. Community-Responsible Behaviour:
 - Demonstrate respect for the community's perspectives on responsible behaviour concerning environmental matters.
